About This Game

"Portals... found buried on Earth. Who made them? We know not. Now we humble humans use them to travel to the stars."

Introduction

We have a new mission for you. Planet: Gliese 581 g. Tests indicate relative safety. Space suit will be required. Gravity 0.15g.
You will find oxygen bubbles in the atmosphere.

Beware of the fauna, stay alive and find a portal to come back for fame and glory!

I really enjoyed the graphics, sprites and music of this game. Sadly it's also HARD AS \u2665\u2665\u2665\u2665, be prepared to make pixel perfect jumps constantly.

Quick Look: <https://youtu.be/VoLIQnnWLozs>. Easy to play, hard to master :)

Don't be deceived, because this game is really difficult to pass!

Full retro, brilliant design and 'that' feeling while playing - BRAVO! :). I really enjoyed the graphics, sprites and music of this game. Sadly it's also HARD AS \u2665\u2665\u2665\u2665, be prepared to make pixel perfect jumps constantly.
